About US

Peafowl IT Solution is a technology services company specializing in Microsoft-based digital solutions. With expertise in Microsoft Power Platform, SharePoint, Power BI, and Copilot integration, they help organizations build scalable, secure, and customizable applications tailored to business needs. One of their flagship offerings is a Health, Safety & Environment (HSE) App built on the Microsoft 365 ecosystem, designed to help companies manage workplace health, safety, and compliance efficiently. This integrated solution focuses on reducing accidents, improving safety culture, and centralizing safety reporting processes across industries with high safety risks such as manufacturing, construction, logistics, and energy.

Key Capabilities of Our Microsoft Integrated HSE App

The Microsoft Integrated HSE App by Peafowl IT offers a broad set of capabilities to streamline and enhance health, safety, and environmental management using the Microsoft 365 platform:

1. Enterprise Trust & Security

Built on Microsoft's secure cloud infrastructure, ensuring enterprise-grade protection of critical safety and compliance data.

2. Remote Monitoring & Hazard Assessments

Provides real-time visibility into hazardous conditions, near-miss events, and safety risks across sites, enabling proactive risk management for distributed teams.

3. Incident Logging & Safety Tracking

Comprehensive incident reporting and tracking to record accidents, injuries, and unsafe events, helping organizations learn from past incidents to prevent recurrence.

4. Compliance Management

Tools to help meet industry standards and regulatory requirements, streamline inspections, and simplify compliance documentation.
